## PROFESSOR AND SCHOOL

MARSHALL SHOT TO

DEATH

Columbia, S. C. May 6.—Prof. Glode M. Holmes, of the University of South Carolina, faculty, and Ben Hale, the University marshal, were shot to death this morning in the treasurer's office at the University.

W. T. Pollard, a junior law student heard the shooting while passing the DeSassure building in which the treasurer's office is located, and on entering he found the dead bodies of the two men. A pistol was found near Mr. Hale's body. Prior to the coroner's appearance no other weapons had been found.

Little is known of the cause of the tragedy. There were no eye witnesses. Police and the coroner were immediately notified and an investigation begun.

Before going into details of the tragedy, Coroner Scott said indications were that Hale while temporarily insane shot Prof. Holmes and then turned the pistol on himself. Prof. Holmes was widely known as an engineering expert.

Oklahoma City, May 6.—"Big Bill," a Caddo Indian living near Gracemount, in Caddo county, has just ordered his summer suit—pants and shirts.

It took ten yards of material to make the shirt while the trousers had a modest waist measurement of eight feet.

"Big Bill" is believed to be the biggest Indian in the world. He weighs 642 pounds, has a thigh measurement of 36 inches and an upper arm measurement of 28 inches.

Nature intended that you should eat what you want. You can do it if you take Tan-lac.—Elba Drug Company.

## NEGRO JAILED FOR

ATTEMPTED RAPE

CRIME COMMITTED NEAR

GORDON; NEGRO TRAIL-ED TO JAKIN, GEORGIA.

Dothan, Ala., May 7.—Trained from Houston county across the Chattahoochee river and into custody by a sheriff seized by a posse and later recovered by the Sheriff.

Madison Jackson, negro was placed in jail at Jakin, Ga. Sunday night charged with attempted criminal assault upon a young white girl near Gordon, Alabama Saturday night.

The alleged attack occurred about a mile from Gordon and the girl was taken to the hospital. Bloodhounds were secured and placed on the trail of the negro, who fled from the scene.

Deputy Sheriff U. G. Watford of Houston county immediately went to Gordon after reports of the affair were received here Sunday morning about 3 o'clock.

Aroused by the negro's crime a posse of citizens was formed and set out in pursuit. Jackson was captured near Jakin, Georgia, after he had been followed across the Chattahoochee river.

Following the apprehension of the negro, he was turned over to Sheriff S. M. Martin, of Bainbridge, Ga., but was later released to the citizens' posse, according to reports received here.

The automobile in which the negro was being transported by the posse was disabled and the sheriff recovered the prisoner and returned him to the jail at Jakin. Feeling is said to be intense. The posse was composed of citizens of both Alabama and Georgia. It was reported that Sheriff Watford returned to Dothan Sunday night.

Full details of the alleged attempted assault of the girl were not available here, though it is known she was attacked near her home in the vicinity of Gordon, about 10 miles from Dothan. The affair occurred about 10 o'clock Saturday night. The

### MINERAL MIXTURES ARE IM-PORTANT

An important part of any satisfactory ration for hogs, and at the same time a part which is frequently overlooked, is the mineral mixture which should be kept before brood sows, pigs, and other hogs at all times. Numerous experiments have shown that hogs make better gains, and are, therefore, more profitable, when they have access to a mineral mixture.

Professor J. C. Grimes, head of the animal husbandry department, at Auburn states that there are many good mineral mixtures but that one composed of equal parts, by weight, of air-slacked lime, charcoal, and salt, has produced good results at the Alabama Experiment Station.

This mixture should be kept in the feed lot, pasture, or otherwise where the hogs have access to it at will.

Business has turned corner in the Southeast has turned the corner, and is gaining momentum in the right direction now. Optimism is at the highest level it has reached in almost two years, and the retail and wholesale trades are showing marked improvement.

Manufacturing establishments are increasing their activities, the farmers are more cheerful, building operations are increasing, unemployment is lessening, and the banks are healthier.

This cheering news is furnished by the monthly review covering the business and agricultural conditions in the Sixth Federal Reserve District, which was issued today.

## WILSON DAM TO BE COMPLETED

NORRIS THINKS CONGRESS WILL ACT FAVORABLY ON APPROPRIATION.

Washington, May 6.—Conclusions reached after more than a month's investigation of private proposals for development of the nitrate and power projects initiated by the government at Muscle Shoals, Ala., were announced tonight by Chairman Norris, of the senate agricultural committee, in a statement to The Associated Press.

After asserting his firm conviction that the government should retain title to the properties within itself for all time, Senator Norris said, however, in his judgement, would not act at this session upon any of the private proposals for Muscle Shoals and all that could be expected before adjournment would be authorized to continue work on the Wilson dam under appropriation of \$7,500,000.

It was his intention, Senator Norris said, to offer an amendment to the army appropriation bill when it was up for passage by the senate which would provide funds for continuing construction work on the Wilson dam by army engineers during the fiscal year beginning July 1st.

Belief was expressed that the senate would accept the amendment, but would decline, because of its congested legislative calendar and the anxiety of members to return home for the fall campaign, to take up for acceptance any of the offers pending in the agricultural committee.

HOUSE STRUCK BY LIGHTNING; WOMAN IS INJURED.

Huntsville, Ala., May 6.—A severe hail and electrical storm swept through this section this afternoon and did considerable damage on the outskirts of Huntsville. A bolt of lightning struck the home of Mrs. E. D. McCurtie, north of Huntsville, knocking the lady unconscious and setting fire to the house, which was completely destroyed by fire at a loss of \$5,000.

On Monday the business houses closed and all jobs in the search which covered the surrounding territory. They are that no clues whatever have been found.

Mr. Jackson has carried one of the mail routes from Electric for a number of years, but of late had been in ill health

and had given up the route. It was feared that his mind has become deranged, and the most popular theory of the case is that he is suffering from mental derangement and has wandered off in a state of abstraction.

Belief was expressed that the senate would accept the amendment, but would decline, because of its congested legislative calendar and the anxiety of members to return home for the fall campaign, to take up for acceptance any of the offers pending in the agricultural committee.
